# Before the Federal Communications Commission Washington, D.C. 20554

In the Matter of	)
Connect America Fund	) ) WC Docket No. 10-90

Comments of Cimarron Telephone Company, L.L.C., Cross Telephone Company, L.L.C., and The Pottawatomie Telephone Co., L.L.C.

Cimarron Telephone Company, L.L.C., Cross Telephone Company, L.L.C., and The Pottawatomie Telephone Co., L.L.C. submit these comments in response to the Public Notices in the above-captioned proceeding. The Public Notices seek comments on census blocks in which the National Broadband Map ("Map") either overstates or understates broadband coverage. The companies submit these comments to identify the census blocks within their service areas in which the Map understates broadband coverage. The Wireline Competition Bureau ("Bureau") should deem these areas as served for purposes of the Connect America Fund Phase I support.

#### I. Understated coverage.

Census blocks are designated as unserved on the Map if they lack fixed terrestrial broadband with an advertised speed of at least 3 Mbps downstream and 768 kbps upstream.<sup>4</sup> The Map incorrectly identifies several census blocks as unserved in each of the companies' service areas. Specifically, Cross Telephone provides fixed terrestrial broadband with

<sup>&</sup>lt;sup>1</sup> Wireline Competition Bureau Updates the List of Potentially Unserved Census Blocks in Price Cap Areas and Extends the Deadline for Comment on the List, Public Notice, WC Docket No. 10-90 (rel. Dec. 10, 2012); Wireline Competition Bureau Seeks Comment on Areas Shown as Unserved on the National Broadband Map for Connect America Phase I Incremental Support, Public Notice, WC Docket No. 10-90 (rel. Dec. 5, 2012) (First Public Notice"); see also In the Matter of Connect America Fund, Further Notice of Proposed Rulemaking, WC Docket No. 10-90 (rel. Nov. 19, 2012) ("FNPRM").

<sup>&</sup>lt;sup>2</sup> First Public Notice; see also, FNPRM ¶ 15.

<sup>&</sup>lt;sup>3</sup> FNPRM ¶ 16.

<sup>&</sup>lt;sup>4</sup> First Public Notice; FNPRM ¶¶ 12, 15.

advertised speeds exceeding 3 Mbps downstream and 768 kbps upstream in the 20 census blocks listed on Attachment 1 that the Map incorrectly identifies as unserved.<sup>5</sup> Because Cross provides fixed terrestrial broadband meeting the threshold speeds in these census blocks, the Bureau should deem those blocks as served for purposes of Phase I incremental support.<sup>6</sup>

Moreover, Cimarron Telephone and Pottawatomie Telephone will, within 45 days, provide fixed terrestrial broadband exceeding the threshold speeds throughout their service areas, including in the census blocks listed on <u>Attachments 2 and 3</u> that the Map identifies as unserved. Cimarron and Pottawatomie currently provide broadband meeting the downstream threshold; their upstream speeds fall just short of the threshold. Both companies are in the midst of network upgrades, to be completed within 45 days, that will result in speeds of 5 Mbps downstream and 1 Mbps upstream throughout their service territories. Cimarron and Pottawatomie will notify the Bureau and update the record once they complete the upgrades.

Accordingly, the Bureau should identify the census blocks listed on Attachments 2 and 3 as served for purposes of Phase I incremental support<sup>10</sup> because they will be served with speeds exceeding the thresholds before any Phase I incremental support is released, and before the Map is updated for Phase I support purposes.<sup>11</sup> Moreover, removing these census blocks from the list of areas eligible for Phase I support – and thus avoiding supporting areas that are already served – aligns with the Commission's goals of promoting broadband

<sup>&</sup>lt;sup>11</sup> *Id.* (proposing to implement the Bureau's revised list of eligible census blocks <u>after</u> adoption of the rules proposed in the FNPRM).

deployment in areas that do not, or would not otherwise, have broadband<sup>12</sup> and ensuring efficient broadband investments.<sup>13</sup>

#### II. Explanation of why the areas are inaccurately reported.

In addition to requesting a list of census blocks in which the Map understates broadband coverage, the FNPRM requests that commenters explain why they believe that the areas were inaccurately recorded. With respect to Cimarron and Pottawatomie, the areas were accurately recorded. But, as stated above, these areas will be inaccurate by the time the Map is updated for Phase I support purposes. Cimarron and Pottawatomie will work with Sanborn, the state mapping entity, to help update the state maps once the companies complete their upgrades. With respect to Cross, after reviewing the situation with Sanborn, Cross believes that the areas on Attachment 1 are inaccurately reported because the Map was based on outdated speed data and relied, in part, on speed test results which were rarely reported to Sanborn.

#### A. Old data reflected slower speeds.

Sanborn believes, and the companies agree, that the Map appears to be based on older data that reflected slower internet speeds than actually offered. As technologies improved, and the companies invested in network upgrades, their broadband speeds improved. Cross now offers speeds of 5 Mbps downstream and 1 Mbps upstream in all of its service areas. And as stated above, Cimarron and Pottawatomie currently offer broadband speeds that fall just short of the upstream threshold and will soon offer speeds exceeding the threshold. Sanborn's data

<sup>&</sup>lt;sup>12</sup> In the Matter of Connect America Fund; A National Broadband Plan for Our Future; Establishing Just and Reasonable Rates for Local Exchange Carriers; High-Cost Universal Service Support; Developing an Unified Intercarrier Compensation Regime; Federal-State Joint Board on Universal Service; Lifeline and Link-Up; Universal Service Reform -- Mobility Fund, Report and Order and Further Notice of Proposed Rulemaking, 26 FCC Rcd 17663 ¶ 20 (2011) ("The CAF will help make broadband available to homes, businesses, and community anchor institutions that do not, or would not otherwise, have broadband ...").

<sup>&</sup>lt;sup>13</sup> See, e.g., id. ("The CAF will rely on incentive-based, market-driven policies, including competitive bidding, to distribute universal service funds as efficiently and effectively as possible.").

<sup>&</sup>lt;sup>14</sup> FNPRM ¶ 15.

more accurately reflect the companies' current offerings than the Map does. In sum, the reliance on older data led to inaccuracies on the Map.

#### B. Lack of speed test results.

As the companies understand it, the speeds reflected on Sanborn's maps also depended, in part, on results reported by customers. But few customers perform speed tests through a site that reports results to Sanborn. Rather, many customers use other sites such as SpeedTest.Net, which did not report results to Sanborn. Consequently, Sanborn may have reported a lack of coverage in areas even though coverage exists. Thus, the Map incorrectly shows these areas as unserved.

#### III. The companies' efforts to correct the errors with Sanborn.

Finally, the FNPRM requests that commenters outline steps they have taken to bring errors to the attention of state mapping entities. 15 Over the last 12 months, the companies have worked with Sanborn to correct the errors to the state broadband map. Since the FNRPM was released, the companies have worked with Sanborn to determine the source of inaccuracies on the Map. The companies provided, and continue to provide, updated speed data that Sanborn uses to update its maps. Sanborn's maps more accurately reflect the companies' actual speed offerings than when the Map was created. 16 In sum, the companies' efforts to correct Sanborn's maps, and determine the source of inaccuracies on the Map, have been fruitful.

#### IV. Conclusion.

The Map identifies as unserved several areas that Cross actually serves, and that Cimarron and Pottawatomie will soon fully serve. Thus, the Map understates coverage in those areas. The companies respectfully request that the Bureau deem the census blocks identified on the attachments as served for purposes of Phase I incremental support.

#### **DECLARATION OF ROBERT DAVID WRIGHT**

- My name is Robert David Wright, and I am Chief Technology Officer ("CTO") of Cimarron Telephone Company, Cross Telephone Company, and Pottawatomie Telephone Company. I certify as follows.
- 2. As CTO, I am responsible for, among other things, designing the companies' networks, planning and implementing network upgrades, and overseeing network technical operations.
- Cross Telephone's network provides broadband service with advertised speeds of 5
  Mbps downstream and 1 Mbps upstream in each of the census blocks identified on
  <u>Attachment 1</u> to the companies' comments.
- 4. Cimarron Telephone currently provides broadband service with advertised speeds of 3 Mbps downstream and 512 kbps upstream in its service areas.
- 5. Pottawatomie Telephone currently provides broadband service with advertised speeds of 3 Mbps downstream and 704 kbps upstream in its service areas.
- 6. Cimarron and Pottawatomie are currently in the process of implementing network upgrades that will allow them to provide broadband service with advertised speeds of 5 Mbps downstream and 1 Mbps upstream in each of the census blocks identified on <a href="Attachments 2">Attachments 2 and 3</a> to the companies' comments. Those upgrades are scheduled to be completed by late February.
- 7. I declare under penalty of perjury that the facts contained in this Declaration, and in the companies' comments are true and correct to the best of my knowledge, information, and belief.

Robert David Wright Chief Technology Officer

January 9, 2013
